Introduction media database

The media database enables you to find media assets via the filter and full-text search capabilities. Each asset provides different media objects, optimized for use as print, electronic and office media.

Areas of activity

The screenshot shows the VITA Mediadatabase interface. The top left features the VITA logo and a search bar containing 'denturist'. Below the search bar is a 'Filters' sidebar with categories like 'Categories', 'Types of publication', 'Source', 'Mediaobjecttype', 'Languages', and 'Status'. The main content area displays a grid of four asset thumbnails for 'VITA DENTURISTEN KIT', each with a 'Product photos' label and 'V 001' identifier. A 'Media information' table is visible below the grid, showing details for the selected asset. On the right, a 'Mediaobjects' table lists several objects with columns for 'Number', 'Name', 'Application', 'Langu...', 'T...', and 'Size'. A 'Metadata Media object' table is also present, showing technical details like 'Name', 'Number', 'Filesize', 'Filetype', 'exif_filename', 'MIME Type', 'exif_compression', 'exif_make', 'exif_model', 'exif_orientation', 'exif_xresolution', and 'exif_yresolution'. Five red circles with white numbers (1-5) are overlaid on the interface to highlight specific areas: 1. Search and category filter; 2. Asset list; 3. Asset data; 4. Objects; 5. Object data.

- 1 Search and category filter
- 2 Asset list
- 3 Asset data
- 4 Objects
- 5 Object data

Search

The **full-text search** facility allows you to find assets via the **content data** or **metadata** of a document.

To search the database, enter **keywords** or **texts**, or, if known, the respective **VITA Product Numbers** or **Print Numbers** used in the document, into the search window.

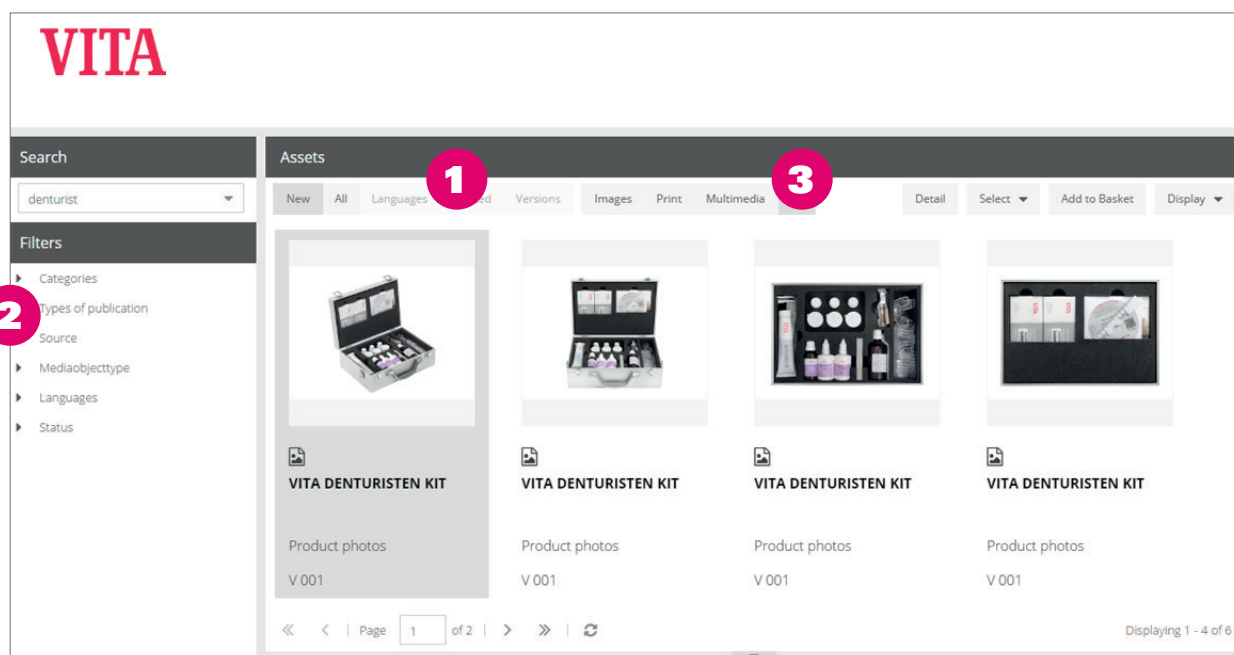

Use the **filters in the tree** to narrow the search down or search directly using the full-text facility. Select categories such as **applications** or **products** as well as desired **language** versions.

You can also select the **publication type**, e.g. product communication product images. All product images of the selected product are displayed.

- 1 Enter a search term
- 2 Optional: select a suggestion
- 3 Start the search / reset the search

The contents of PDF files are part of the search index.

Filter

- 1 Select all assets, language versions, related assets or versions
- 2 Filter assets according to categories
- 3 Quick access to filtering by file type

Depending on the selection made, 1 all assets, the language versions of a selected asset, or assets or versions related to a selected asset are shown. Filter according to categories to further narrow down the list of displayed assets 2. Filter by type only in the area "all assets".

Assets

The screenshot shows the SAP Assets interface. At the top, there is a navigation bar with tabs: 'New', 'All', 'Languages', 'Related', 'Versions', 'Images', 'Print', 'Multimedia', and 'All'. To the right of these tabs are buttons: 'Detail', 'Select', 'Add to Basket', and 'Display'. Below the navigation bar, there is a list of assets. The first asset is highlighted with a red circle '1'. It is a 'VITA DENTURISTEN KIT' with 'Product photos' and 'V 001' as a version. Below the list, there is a 'Media information' table with the following data:

Attribute	Value
Name	VITA DENTURISTEN KIT
Number	MA-051219
Description	Das Kit enthält alle Bestandteile, die ein Denturist zur Herstellung einer Prothese benötigt
SAP Material Number	ASDKIT
SAP Print Number	

The assets are displayed in the center with a preview showing the **language ID**, **publication type** and **name**.

To display the **metadata**, click on the black up arrow key beneath the list.

To display the available **objects** and their **metadata**, click on the **arrow "media objects"** in the right-hand field. If an asset has different **language versions** or other **related assets**, these can be displayed by clicking on the tabs.

- 1 Click here to select an asset. Hold down CTRL to select several assets
A **double-click** on the asset opens the detail view of an asset.
- 2 Asset data of the selected asset
- 3 Auswahl der Dateien, die zum Sammelkorb hinzugefügt werden sollen
- 4 Fügt die Auswahl einem Sammelkorb hinzu, der anschließend per E-Mail versendet oder heruntergeladen werden kann
- 4 Download selected elements
- 5 Adds the selected elements to a collection basket, which can then be sent by e-mail or downloaded directly

Note: the download of assets or objects only takes place via the collection basket.

Objects

The screenshot displays the 'Mediaobjects' interface. At the top, there is a header 'Mediaobjects' with a right-pointing arrow. Below the header is a button labeled 'Add to Basket' with a red circle containing the number '3' next to it. The main area contains a table with columns: 'Number', 'Name', 'Application', 'Langu...', 'T...', and 'Size'. The first row is selected, indicated by a checkmark in the first column and a red circle with the number '1' next to it. Below the table is a section titled 'Metadata Media object' containing a table with columns 'Attribute' and 'Value'. A red circle with the number '2' is next to the 'MIME Type' attribute.

Number	Name	Application	Langu...	T...	Size

- 1 List of media objects
- 2 Data of the selected object
- 3 Add the selected media object to the collection basket

Note: the download of assets or objects only takes place via the collection basket.

Collection Basket

The screenshot shows a 'Basket' window with a toolbar and a table of files. The toolbar contains icons for selection, refresh, close, send (2), download (3), warning, save (4), and load (5). The table has columns for Number, Version, Languages, Application, Filename, Ty..., and Size. Three rows are visible, with the last row highlighted in red. A message at the bottom (6) states: 'Some files cannot be downloaded directly. [Request files](#)'.

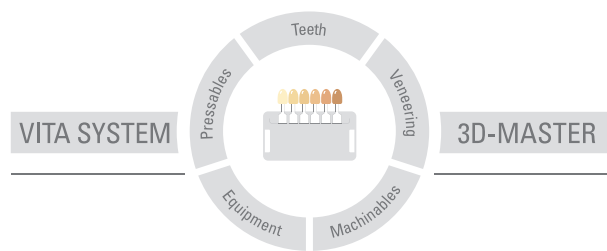

Number	Version	Languages	Application	Filename	Ty...	Size
<input type="checkbox"/> MA-039112	2	de,en,fr,it,es	Originaldatei	YZ T/HT Verarbeitungsanleitung (...)	zip	5,99 MB
<input type="checkbox"/> MA-048359	1	de,en,fr,es,p...	Originaldatei	VITA DENTAL VISIONIST 01/16 (19...	zip	22,28 MB

- 1 Select objects
- 2 Send collection basket or selection
- 3 Download selection
- 4 Save collection basket
- 5 Load collection basket
- 6 Send release request

Send collection basket

- You will receive an e-mail with a download link
- The validity period of the link is set when sending

The message on the lower part of the screen 6 is displayed only when the collection basket contains assets which cannot directly be collected. These are highlighted in red in the list.
