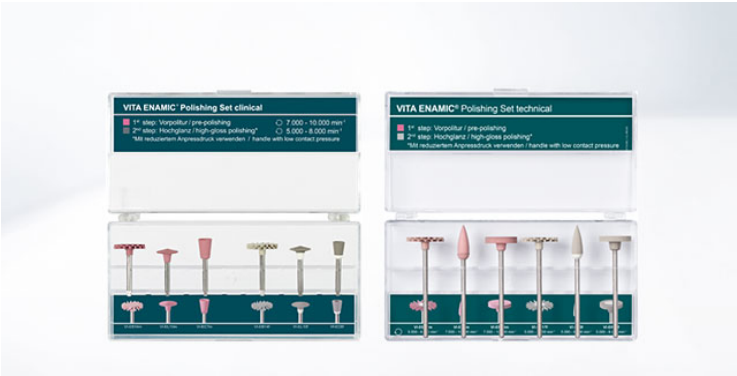
VITA ENAMIC® Polishing Set

For simple pre- and high-gloss polishing of VITA ENAMIC hybrid ceramic



Product description
The VITA ENAMIC polishing sets were developed for reliable, efficient and material-specific surface treatment of hybrid ceramic restorations in dental practices and laboratories. The sets include various polishing instruments for pre- and high-gloss polishing. These instruments are suitable for careful and gentle polishing of occlusal surfaces, cusps, fissures and contact points of the restoration and produce surfaces with exceptional gloss.

Features/Benefits
Excellent final results:
High Gloss and plaque-resistant surfaces can be produced with these instruments. Precise concentricity, matched grit sizes and the individual geometries of the instruments guarantee results with superior precision.

Simple and safe handling:
The instruments provide superior material removal performance. Good handling and the use without polishing paste enable simple and fast processing.

Gentle and careful processing:
These instruments were developed specifically for the VITA ENAMIC to ensure gentle and careful polishing, reducing the risk of possible microcrack formation.

Content
VITA ENAMIC Polishing Set clinical:
Includes a total of 6 instruments for the contra-angle; 3 instruments for pre-polishing and 3 instruments for high-gloss polishing.

VITA ENAMIC Polishing Set technical:
Includes a total of 6 instruments for the handpiece; 3 instruments for pre-polishing and 3 instruments for high-gloss polishing.

VITA SUPRINITY® Polishing Set

For simple pre- and high-gloss polishing of VITA SUPRINITY PC

Product description

The VITA SUPRINITY Polishing Sets were developed for reliable, efficient and material-specific surface treatment of zirconia reinforced lithium silicate ceramic (ZLS) restorations in dental practices and laboratories. The sets include various polishing instruments for pre- and high-gloss polishing.

These instruments are suitable for careful and gentle polishing of occlusal surfaces, cusps, fissures and restoration contact points. They ensure a brilliant shine on the finished restoration.

Features/Benefits

Excellent final results:

The instruments produce highly esthetic and plaque-resistant surfaces. Precise concentricity, matched grit sizes and the individual geometries of the instruments guarantee superior results.

Simple and safe handling:

The instruments provide removal capacity that can be easily controlled with minimal wear. Good handling and the ability to use them without polishing paste enables simple and fast processing. Safe use is also guaranteed since the insturments can be sterilized.

Gentle and careful processing:

These instruments, which were developed especially for VITA SUPRINITY PC, ensure gentle and careful processing. As a result, the risk of possible formation of microcracks is reduced.

Content

VITA SUPRINITY Polishing Set clinical:

Includes a total of 6 instruments for the contra-angle; 3 instruments for pre-polishing and 3 instruments for high-gloss polishing.

VITA SUPRINITY Polishing Set technical:

Includes a total of 8 instruments for the handpiece; 4 instruments for pre-polishing and 4 instruments for high-gloss polishing.

VITA polishing pastes

Diamond polishing pastes for extraoral high-gloss polishing of ceramic and polymer containing materials

Product description

VITA Polish Hybrid is a diamond polishing paste for extraoral and final high-gloss polishing of restorations made of VITA ENAMIC hybrid ceramic, composite and polymer.

VITA Polish Cera is a diamond polishing paste for extraoral and final high-gloss polishing of restorations made of dental ceramic materials: feldspar ceramics, glass ceramics and zirconia ceramics.

Features/Benefits

- Both polishing pastes enable quick and reliable high-gloss results. At the same time, the surface texture is preserved.
- The diamond particles are each specifically matched to the material classes. As a result, this improves the surface hardness and reduces the likelihood of plaque accumulation.

Content

VITA Polish Hybrid polishing paste is very suitable in connection with the polishing of VITA ENAMIC hybrid ceramic, in conjunction with the polishing instruments of the VITA ENAMIC Polishing Sets clinical and technical.

VITA Polish Cera polishing paste is very suitable in connection with the polishing of VITA SUPRINITY PC, VITA AMBRIA and VITA YZ, in conjunction with the polishers of the VITA SUPRINITY Polishing Sets clinical and technical.
