

PROSEC LIVE COURSE

Non-Invasive and Simple Dentistry with Chairside PICN Palatal Veneers

Prof. Florian Beuer & Prof. Amelie Mainjot

16. November 2026 – DDA
(Digital Dental Academy)
Berlin

Exclusive live patient course with Prof. Florian Beuer and Prof. Amelie Mainjot

In this exclusive full-day live course, **Prof. Dr. Florian Beuer and Prof. Dr. Amelie Mainjot** will present a modern, **minimally invasive** treatment concept for cases of tooth wear using chairside-fabricated palatal veneers made of PICN.

The focus is on a **live patient case**, which will be demonstrated step by step—from diagnosis and case presentation through intraoral scanning, chairside design, and fabrication, all the way to placement and final finishing. The live format is complemented by scientifically grounded lectures and discussions of clinical case studies.

With **enrollment limited to 20 participants**, you'll benefit from an intensive professional exchange, high clinical relevance, and direct access to two internationally renowned speakers. Secure your spot early—**first come, first served**.

Course Overview

November 16, 2026, from 8:30 a.m. to 5:30 p.m.

Participants: max. 20 people

Course fee: € 499

Venue: DDA – Digital Dental Academy, Berlin

Highlights

Live patient treatment

Experience the chairside treatment of a tooth wear case with palatal veneers made of PICN in real time.

Science and clinical practice in direct application

Evidence-based introduction to the use of PICN (VITA ENAMIC) in minimally invasive dentistry.

Practice-oriented digital workflow

From IOS to design with CEREC, through milling, polishing, surface treatment, and adhesive placement. **Renowned course instructors**

Learn from Prof. Dr. Florian Beuer and Prof. Dr. Amelie Mainjot—two renowned experts in the restorative and digital dentistry.

Exclusive setting

Only 20 participants for in-depth exchange, direct discussion, and high interactivity.

Relevant clinical case concepts

Additional case presentations and discussion, including the One-step No-prep technique for tooth wear treatment.
