INSTALLATION GUIDE: IN 3 EASY STEPS

iOS

1) Scan **QuickCode** or enter **https://app.scientific-radar.com** in Browser

2) Click the **share icon** in the browser

3) Select the option **"Add to Home Screen"** On the 'Add to Home' page

1) Scan **QuickCode** or enter **https://app.scientific-radar.com** in Browser

2) Tap the **three-dot menu** in the top left corner

3) From the menu, select **"Add to Home screen"**. (This may differ on other browsers).

Installed easily by navigating to the URL in a browser and then adding the **app to the devices home screen**.

Essentially this is just a browser bookmark, but the link instead will act like a native mobile app.
